

Ye Zaw Htet

PROGRAMMER

I'm highly motivated to acquire significant experience and knowledge to advance my career in both programming and business domains.

EXPERIENCE

Web Development

NVL University

2018 ~ 2023

- Built a tutor-finding platform using PHP for backend and Bootstrap for responsive design. JS for interactive.
- Implemented search filters for tutors by subject, location, and availability.
- Database design created with UML diagramming tools.
- Developed an admin panel for user management and session monitoring.
- Developed Challenges from Frontend Mentor Website using HTML, CSS, JS

Windows application Development

BIB Training Center (OJT)

2023

- Collaborated in a 3-member team to design and implement a robust database for a POS system.
- Developed and deployed a POS solution using C# and .NET Framework, optimizing transaction efficiency.
- Presented system architecture and workflow to leaders and other teams.
- Built responsive, user-friendly frontends with HTML, CSS, and jQuery.
- Utilized Chrome extensions (Web Developer, Perfect Pixels) to ensure pixel-perfect design and cross-browser compatibility.

UT/IT Testing and development

GIC Myanmar Co., Ltd.

2024 - Present

- Conducted UT and IT testing for an insurance company website.
- Implemented Excel file upload and download functionality using Maatwebsite/Excel.
- Improved UI design and functionality using Vue.js.
